

## Renew (continued)

### **Cream 5/Cream Plus 10/Cream Plus 12**

**Product Description:**

An extra gentle exfoliating cream designed for dry or mature skin. A progressive range of creams available in three strengths to reveal fresher, smoother and younger looking skin.

**Skin Types:**

**Cream 5** - Developed for dry or mature skin and recommended for patients beginning the GlyDerm® Program.

**Cream Plus 10** - Developed for dry or mature skin and recommended for patients who have successfully used Cream 5.

**Cream Plus 12 with Glycolic Acid (12%) and Salicylic Acid** - A combination of glycolic and salicylic acids. Developed as a *next level* in the program for patients with dry or mature skin who have successfully used Cream Plus 10. The addition of salicylic acid enhances exfoliation and opens clogged pores.

**Benefits:**

- Minimizes the appearance of pigmentation irregularities.
- Maintains the results of the six-week, in-office peel program.
- Softens fine lines.
- Stimulates collagen deposition and increases hydration.

**PM Exfoliator Directions:**

Wash face with GlyDerm Gentle Face Cleanser. Apply sparingly. Leave on overnight. To ensure tolerance, leave first application on for two hours then wash off with GlyDerm Gentle Face Cleanser. Wait 24 hours. If no irritation occurs, patient may use the product as directed.

**Note:** If patients using Cream Plus 12 experience irritation, suggest alternating between Cream 10 and Cream 12 until desired results and comfort levels are achieved.

Cream 5/Plus 5/Plus 12

## Renew (continued)

**Cream 5/Cream Plus 10/Cream Plus 12 (continued)****Featured Ingredients:**

**Glycolic Acid** - Originally derived from the sugarcane plant, glycolic acid has proven anti-aging and exfoliating properties. Glycolic acid reduces corneocyte cohesion by dissolving the cellular cement that bonds skin cells together creating a thinner, more compact stratum corneum. It also promotes collagen deposition to improve firmness and boosts hyaluronic acid to increase moisture content. The result is softer, smoother skin that looks brighter and younger. GlyDerm is formulated with a proprietary form of esterified glycolic acid to minimize irritation without compromising effectiveness.

**Citrus Medica Limonum (Lemon) Fruit Extract** - Clarifies the skin, has anti-inflammatory properties and is a natural source of Vitamin C. Carthamus Tinctorius (Safflower Seed Oil) provides natural hydration.

**Mineral Oil** - Soothes and softens the skin, enhances epidermal barrier function and locks-in moisture to maintain hydration.

**Petrolatum** - Penetrates the stratum corneum to improve barrier recovery, hydrates by locking in moisture, soothes and softens the skin.

**Salicylic Acid** - Originally derived from white willow bark and wintergreen leaves, this beta hydroxy acid has keratolytic and anti-inflammatory properties.

**Complete Ingredient Listing:**

**Cream 5** - Water, Petrolatum, Paraffinum Liquidum, Cetearyl Alcohol, Glycolic Acid, Glyceryl Stearate, Cetearth-20, Propylene Glycol, Phenoxyethanol, Isopropyl Palmitate, Alcohol, *Citrus medica limonum* (Lemon) Fruit Extract.
