Face Lotion 5/Face Lotion Plus 10

Product Description:

A gentle exfoliation lotion that provides hydration and exfoliation revealing a smoother, brighter and more radiant-looking complexion.

Skin Types:

GlyDerm® Face Lotion 5 - Developed for normal skin and recommended for patients beginning the GlyDerm program.

GlyDerm Face Lotion Plus 10 - Developed for normal to dry skin and recommended for patients who have successfully used the Face Lotion 5.

Benefits:

- Minimizes the appearance of pigmentation irregularities.
- Maintains the results of the six-week, in-office peel program.
- Softens fine lines.
- Stimulates collagen deposition and increases hydration.

PM Care Directions:

Wash face with GlyDerm Gentle Face Cleanser. Shake bottle well and apply sparingly. Leave on overnight. To ensure tolerance, leave first application on for two hours then wash off with GlyDerm Gentle Face Cleanser. Wait 24 hours. If no irritation occurs, patient may use the product as directed.

Featured Ingredients:

Glycolic Acid - Originally derived from the sugarcane plant, glycolic acid has proven anti-aging and exfoliating properties. Glycolic acid reduces corneocyte cohesion by dissolving the cellular cement that bonds skin cells together creating a thinner, more compact stratum corneum. It also promotes collagen deposition to improve firmness and boosts hyaluronic acid to increase moisture content. The result is softer, smoother skin that looks brighter and younger. GlyDerm is formulated with a proprietary form of esterified glycolic acid to minimize irritation without compromising effectiveness.

Citrus Medica Limonum (Lemon) Fruit Extract - Clarifies the skin, has anti-inflammatory properties and is a natural source of Vitamin C.

Mineral Oil - Soothes and softens the skin, enhances epidermal barrier function and locks-in moisture to maintain hydration.

Petrolatum - Penetrates the stratum corneum to improve barrier recovery, hydrates by locking in moisture, soothes and softens the skin.

Face Lotion 5, Plus 10
